

Sylpheed - Feature #60

IMAP letter "readed" status tracking

05/04/2012 06:56 PM - A K

Status:	New	Start date:	05/04/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>Sylpheed can resides in system tray, it shows new mail notifications. If you read new letters from web browser, Sylpheed still shows notification, but you will not find unread letters in IMAP folder. It will be nice if program will track status of letters in background and switch off "new mail" icon if letters are reader by another way.</p>
